

# WHO WE ARE

Join the Movement (Events) is a 501(c)(3) non-profit organization with the mission of bringing awareness and education to not only Walworth County, but throughout Wisconsin and the midwest as human trafficking is present all over. JTME has created programs for students and adults and speaks with individuals from all professions, as well as children and teenagers at local schools. Every community needs awareness and education to understand what is at stake. Together, we can help our local law enforcement as we come together to make a difference. JTME will come to your group/organization/community event to bring awareness and education to your area of Wisconsin. We provide rounded presentations that not only talk about human trafficking but also cover sexual assault, exploitation and social media safety.
